PROFILE

Full-Stack Developer (Computer Science, Jan. 2026) with hands-on experience building complete web applications from frontend to backend — including e-commerce platforms, authentication systems, and REST APIs. Skilled in React.js, Next.js, TypeScript, and Tailwind CSS for building responsive, interactive interfaces, and in Go (Golang) with Chi Router for designing secure, scalable backend systems integrated with MySQL and MongoDB. Passionate about clean architecture, performance optimization, and shipping production-quality software.

WORK EXPERIENCE

Frontend Web Development Intern

Glims Technologies, Bahawalpur | Jul. 2025 – Aug. 2025

- Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, React.js, Next.js and Tailwind CSS.
- Built reusable frontend components and optimized layouts for different screen sizes and devices.
- Collaborated with developers during project development, fixed UI bugs, and improved website responsiveness and performance.
- Sat in on daily code reviews with senior developers, fixed review comments same-day, and shipped every assigned feature on time.

Game Developer

PK Gaming Technologies, Bahawalpur | Jan. 2024 – Jun. 2025

- Developed 3D simulation games, including bus, truck, taxi, and van simulators, using Unity and C#, with a focus on realistic vehicle physics and gameplay mechanics.
- Created and animated in-game cutscenes and character/vehicle animations to enhance player immersion and storytelling.
- Worked across the full game development pipeline — scripting gameplay logic in C#, building 3D environments, and testing and refining player experience on-site as part of a full-time team.

PROJECTS

Apple Store – Full-Stack E-Commerce Platform

Next.js, TypeScript, Tailwind CSS, Stripe, Brevo, Go (Golang), Chi Router, MySQL, JWT

- Built a full-stack, Apple-inspired e-commerce platform with a Next.js/TypeScript frontend and a Go (Chi Router) REST API backend, backed by MySQL for persistent data storage.
- Implemented secure JWT authentication with email verification and password recovery, along with product catalog, cart, and order management features.
- Integrated Stripe (test mode) for secure checkout and payments, and built order management functionality for tracking and managing customer orders.
- Deployed the Next.js frontend on Vercel and the Go backend with MySQL on Railway, handling production environment configuration.

Personal Portfolio Website – GTA-Inspired Interactive Developer Portfolio

Next.js, TypeScript, Tailwind CSS, Framer Motion, Three.js / React Three Fiber

- Designed and developed a GTA-inspired interactive developer portfolio using Next.js and TypeScript, featuring cinematic visuals, character-style stats, and mission-style project cards.
- Built immersive scroll-based animations and 3D elements using Framer Motion and Three.js/React Three Fiber, along with a custom weapon-wheel style navigation system.
- Built with Next.js App Router and responsive Tailwind CSS layouts, including an interactive mini-game section, and deployed on Vercel for fast global performance.

EDUCATION

Bachelor of Science in Computer Science

The Islamia University of Bahawalpur, Baghdad-ul-Jadeed Campus | March. 2022 – Jan. 2026

- Cumulative Grade Point Average (CGPA): 3.01 / 4.0
- Studied: Data Structures and Algorithms, Database Management Systems, Object-Oriented Programming, Web Engineering, Software Engineering, Computer Networks

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Go (Golang), C#

Frameworks/Libraries: React.js, Next.js, Tailwind CSS, Bootstrap, Chi Router

Tools: Git, GitHub, Visual Studio Code, Postman, Docker, Unity

Databases: MySQL, MongoDB

Soft Skills: Team Collaboration, Problem Solving, Time Management, Adaptability
